

SHEPHERD RECYCLING

Recycle or Properly Dispose of:

- Lamps
- Ballasts
- Batteries
- Computer Equipment

Customers Serviced:

- Schools
- Hospitals
- Building Management
- Contractors
- Government Facilities

It is a Federal and State requirement to recycle lamps, ballasts, batteries and computer equipment. Let Shepherd Electric Supply make it easy for you!

Nationwide, over 670 million mercury-containing bulbs are discarded each year. Most of these bulbs are still discarded with municipal solid waste that is ultimately land filled or incinerated. These disposal methods can lead to a release of elemental mercury into the environment through breakage and leakage and could ultimately contaminate the food chain. Shepherd Electric Supply's recycling program is a safe and cost-effective way to manage this easy-to-overlook environmental and health risk.

Fluorescent lamps and ballasts are considered a universal waste under Maryland State Law; this can be found under *Maryland Universal Waste Laws 40 CFR 273.16*. All lamps, ballasts, batteries and computer equipment must be stored in DOT approved cartons or drums for transportation.

Contact your Shepherd Electric Sales Rep for more information on how we can help you recycle your used lamps, ballasts, batteries and/or electronics.
